Bring Education to Life
Join Mary Lou Fulton Teachers College as we celebrate the bicentennial of Mary Shelley’s timeless 19th-century novel, “Frankenstein.” We’ll reflect on this novel’s message about creation, science and what it means to be human. Together, we’ll explore the pros and cons of innovative technologies and examine what can go wrong or right in the process of creation. We’ll bring life to concepts of design thinking, creativity, and problem-solving as you participate in activities that will allow you to imagine future contributions. Each participant will create a creature — using unorthodox materials — and help us craft a collaborative story.

Host: Mary Lou Fulton Teachers College

Mission: Make Something Happen

The School of Civic and Economic Thought and Leadership prepares students to be critical thinkers, creative human beings, educated problem solvers, and altruistic citizens ready to get to work for the common good.

Curriculum: Great Books and Big Ideas

CEL classes are small and energetic. Through the study and debate of concepts like Liberty, Freedom, Justice, Equality, and Leadership, students explore a diverse range of opinions and develop the skills to listen, learn, and debate them with civility and finesse.

Opportunities: From Local to Global

All students in the school are required to complete internships in public life. They are introduced to opportunities in state and local governments and NGOs, as well as in Washington DC and abroad. This spring, twelve students will participate in a fully funded service project trip to India, where they will work with local organizations to solve real world problems.

Faculty: One-on-one mentorship

Our faculty is made up of Fulbright and Rhodes Scholars, Peace Corps volunteers, and Harvard, Princeton, and Oxford graduates. Professors are experts in public policy, economics, political philosophy, ethics, and history. They mentor students through research projects, scholarship applications, and honors theses. Our team is civic-minded and well-connected. They volunteer to speak in K-12 classrooms, scout meetings, professional organizations, and at national and international conferences.

Public Programs: Students are the VIPs

The School of Civic and Economic Thought and Leadership partners with the Walter Cronkite School of Journalism and Mass Communication and the Sandra Day O’Connor College of Law to organize a series of public programs that bring renowned scholars and public officials to ASU to discuss today’s most challenging issues. This year, the theme is Free Speech and Intellectual Diversity. Students are always at the center of the conversation.

Major and minor pending. Honors contracts available.
