The School of Art at ASU is ranked as a top 15 school in the nation with our Photography program considered one of the finest institutions rating number 6th in the country!

The Bachelor of Fine Arts in Art in Digital Photography at ASU is the first online program from a research 1 university or fine art college in the nation to offer an online studio practice-based degree.

Students have access to the widest range of photographic possibilities, including silver gelatin, digital imaging, video, alternative and historic processes and mixed media. Opportunities are available for photography students to also explore interdisciplinary options in their art through other disciplines, including 2D, printmaking, intermedia and sculpture.

The School of Art has 4 Galleries, Northlight Gallery, is strictly dedicated to photography and houses a multi-million dollar collection of more than 4,000 photographic prints that date back to 1840. The Gallery exhibits and hosts talks by national and international artists. Students enrolled in the Photo Exhibitions course assist in every aspect of the gallery, including exhibition curating, installing and cataloging.
Taking pictures can be lots of fun and easy! We all know how to take a selfie. What's awesome is Photography also offers you an opportunity to explore artistic concepts like framing, vantage point, and creative decision-making. Because photography is also a personal view of your world, it can also serve as a way to express your point of view to others.

Navigate through the following prompts and activities discovery your point of view through the camera lens!

Materials Needed:

- Phone with Camera or Digital Camera

SHARE YOUR PHOTOS WITH US ON SOCIAL MEDIA @ASUSCHOOLOFART
TIK-TIK-FLASH!

Lots of people take pictures when they go on vacation, but who said you can't take pictures when you're at home!

Set a timer on your phone for every hour and take a picture of what you are doing when your alarm goes off! Whether you're eating cereal or doing chores you can always take some fun pictures of your everyday life.
EXPLORE PHOTOGRAPHY!

Let's get out of the house!

Grab a mask, put on some comfy walking shoes, a camera, and a friend.

You can go somewhere fun for this activity or you can go from your home and explore your neighborhood!

Once you're ready to go, close your eyes and spin! After 5 seconds of spinning stop and walk for 5 minutes in the direction you're facing. After 5 minutes, stop and take a picture wherever you are!

Once you get back home, look through the pictures that you took. You might have found yourself somewhere you didn't even know existed!
PHOTOGRAPHY ABC'S

Let's re-imagine the alphabet!
Instead of ordinary words like A is for Apple, let's shake things up!

Grab your camera and photograph the alphabet how you want to see it! Use food, colors, objects or even people! Take a picture to represent every letter A-Z!
